Objectives

The purpose of this course is for the students to develop elementary proficiency in speaking, reading, listening, and writing in Ukrainian, while acquiring some basic knowledge of Ukrainian culture, history, geography, and way of life.

Upon completion of the course, students who have attended classes on a regular basis successfully completed all assignments and all tests and exams with a minimum grade of B- should be able to:

- master Ukrainian pronunciation and grammatical accuracy well enough to be understood by a native speaker of Ukrainian.
- provide basic information in Ukrainian, both orally and in writing, about themselves, their family, likes and dislikes, everyday activities, studying, as well as some immediate needs, such as ordering food and making simple purchases;
- understand and participate in simple exchanges on everyday topics (e.g., meeting people, school, shopping, etc.) in most common informal settings;
- use and understand a range of essential vocabulary related to everyday life (e.g., days of the week, numbers, months, seasons, numbers, telling the time and date, family, food, transportation, common objects, colors, etc.).

Requirements

Assignments and class performances are based on an expectation of approximately an hour and a half to two hours of home preparation for each classroom hour.

Attendance is mandatory. More than two unexcused absences may adversely affect the student's final grade. Students who miss a class are expected to do additional make-up assignments and learn all missed phonetic, grammar, and conversational material including home assignments, quizzes, and tests. Students who miss a class because of illness or a university obligation must submit to their instructor an official note (from the doctor or university office) justifying their absence. Students are asked to come to class on time and to inform the instructor in advance of any anticipated absence.

Written homework assignments are due for the following class unless otherwise stipulated and will be returned on the following class day. The instructor will not accept late homework. Students are to submit their assignments at the end of class without an additional reminder. Assignments must be neat, legible, and written in cursive style. Word stress should be treated as if it were a letter and should always be marked in every single word in all written assignments. Assignments should be written with left-hand margins and in every other line, to leave sufficient room for work with mistakes and instructor's comments.

Oral preparation is as important as all written work and will greatly improve students' ability to participate in class and develop their language skills. Students are required to participate individually or in-group works on a regular basis in order to improve your speaking skills.

Regular work with the phonetic materials available online is essential to learning Ukrainian.

Both oral and written exercises are to be made so that the student knows the meaning of every form, word, and sentence; how to vocalize the material with correct pronunciation, intonation, and logical stress. The students should vocalize everything they write as part of their preparation, paying attention to the position of the word stress.

Students will be working on a regular basis with audio and visual materials including recording radio, TV programs, interviews, performances, feature films, documentaries, animation, etc.

Tests and quizzes. The dates of unit tests are announced by the instructor at the beginning of the week the test will be taken. Tests are cumulative, i.e. they include all previous material. No-shows will receive a grade of zero. Tests and announced quizzes must be taken on time unless you are ill and inform the instructor before the test. Shorter lexical, phonetic, and grammar quizzes will also be given without advance notice. Quiz scores are a preparation and participation part of your course grade. Any assigned material can be tested as part of such blitz quizzes.

Grading.

The course grade will be determined according to the following formula:

Activity in class	20%
Written homework	25%
Unit tests	20%
Final exam	35%

Each student is graded based on the progress s/he made compared to where s/he started and not in comparison with other students in the group. Students are encouraged throughout the course to take risks and create with language. A system of bonus points is used to encourage students' creative approach to language learning. For example, an additional correct variant provided by a student in a test (quiz, exam) will be awarded bonus points.

Grading scale:

Each home assignment, quiz, weekly test, and the final examination will be evaluated on the scale of one hundred percentage points. The correlation of the scale with the letter value of the final course grade is as follows:

93-100% A	90-92%	A-	87-89%	B+	
83-86% B	80-82%	B-	75-79%	C+	
72-74% C	68-71%	C-	60-67%	D	0-59% F (failure)

Detailed Description of Individual Classes A course website has been designed for Elementary Ukrainian I on Columbia Coursework's. The student is required to spend at least two hours a week working with audio files, and to check the on-line syllabus for possible additional assignments. Assignments marked (in writing) are to be written on a loose-leaf paper and submitted to the instructor at the end of every class without additional reminder. Oral exercises should be treated as seriously as the written ones. The detailed weekly break-down of the classes with conversational and grammar topics described and assignments will be provided as the course progresses under the syllabus part of the coursework.
